Upgrade your Ingenico 5100 terminal with wireless connectivity to the Internet World. Datecs GPRS modem plug-in card for Ingenico 5100 is your best choice for avoiding the disadvantages of the dial-up connection. Datecs GPRS modem plug-in card is based on the most reliable GSM/GPRS module in the industry - the Wavecom Q24PLUS.

Datecs offers a fully integrated GSM/GPRS solution with a full featured TCP/IP stack and AT commands.

Main features

- Small size plug-in card that fits into any Ingenico 5100 terminal without any hardware changes required.
- Advance GPRS capabilities class 10.
- Quad band allows you to use the module all over the World.
- Open AT plug-ins – TCP/IP, Internet, GTi Mono etc.
